Ref: Asbestos Abatement at Eaton City Property at 1st & Factory

Scope of Work

Belfor Environmental Inc. is submitting an estimate to clean up, remove and dispose of asbestos containing and or contaminated materials located throughout the property located at 1st & Factory in Eaton CO. Our estimate is based upon the assumption that the main factory building is contaminated throughout all levels. It also includes the removal and disposal of the transite roofing material on the large barn type building and misc. materials located in the old office building.

Belfor Environmental Inc. attended a site walk of all facilities, and our estimate is based on that visit and the list of materials to be abated that was supplied by URS.

It is understood that Belfor Environmental Inc. is submitting this estimate for budget purposes only and that a more thorough scope of work would need to be developed in order to facilitate a more accurate proposal.

Belfor Environmental Inc. would like to Thank You for this opportunity and look forward to the possibility of working with you and the City of Eaton.

Total Cost -- \$1,890,000.00

Belfor Environmental will complete the asbestos abatement within the regulatory requirements of OSHA, Colorado Regulation 8, and NESHAPS. Belfor Environmental will assign only Colorado Asbestos-Certified Supervisors and Workers to this project.

Belfor Environmental will furnish all costs associated with the labor, supplies, equipment, OSHA monitoring, \$2,000,000 occurrence insurance, and waste disposal needed for the completion of this project. The owner will provide water and electricity, and the work areas will be available during normal work hours. Disposal of the asbestos waste will be at an EPA-approved landfill that accepts friable asbestos. A copy of the Disposal Manifest will be provided to the owner. This proposal does not include clearance air samples.

Belfor Environmental appreciates the opportunity of serving you. If you have any questions or concerns, please feel free to contact me at any time.
